no means so bad a thing as is generally sup-
posed, and that if "Good Form" is to pur-
sue its course, it must be done in a way that

question as to whether life is worth human effort must be easily answered.

As Swift left out of his work many "oaths of importance" — not from any feeling of delicacy, but because the fashion in which he changed with the wind — so we may conclude that "A Member of the Aristocracy" is refrained from recording the thousand and one ways which "society" enjoys of revealing how mean, false, and contemptible its system of intercourse is. Perhaps Dr. Johnson was a little too far when he threw his cup of sneer under the grate in answer to Mr. Trollope's reproach for having dipped his fingers in the sugar basin; but we cannot help thinking that the course of civilization of the

some similar outrage upon your good form
would do society a good turn, and you

LOVE AND BALD HEADS.

No one who looks down from a gallery
at a church, upon a devout congregation, can
fail to notice how many bald heads there are.
Baldheadedness does not, indeed, seem to
be common in the ordinary affairs of life, but
it is common in making love to a girl, it is
very different thing. Girls adore a suit-
ably glossy hair. It is lovely. And when a lo-
ver comes to woo her with the top of his head
showing like a gleamed pumpkin, he is at a
disadvantage. Just as the words that glaze
the tongue, and the thoughts that burn beside a lover's
in hot bosom, are sympathetic thrill, she
loves him, notices his two or three fine
pendant over his physiological organs,
and all is over. While he pouring out
love and passion she is wondering how
his fingers manage to hold on to such a slippery
surface.

Here since duelling has by the de-
 clarement of the laws of England
 been almost totally blotted out in
 code of good society. Duelling was (and
 still on the continent) regulated by a
 number of detailed rules applicable to sim-
 ilarly every possible circumstance, so that no
 who is appealed to act as a "friend" in
 affair of honour need ever be in a diffi-

 In England, however, we have
 abolished duelling and have supplanted

 laborated works by "A member of the A-

 one man can chastise another for insult
 him, when such insults are not pun-

 law takes no cognizance of many offences
 which are the most painful to their victims

 chastisement on a person who has in-

 misdemeanor punishable under an A-
 Parliament.

Such a chapter will, of course, deal
 horsewhipping in a state worthy of the
 in England—that duelling, useful
 in many cases, was a barbarous and
 custom—if it frequently perpetrated
 insulting another for fear of the
 sequences, it often gave the dead ab-
 slow swordsmen an advantage he was
 slow to use in bullying a person who
